ASURINT

CRIMINAL BACKGROUND CHECKS MORE EFFICIENT THAN EVER BEFORE.

# IQLogics™ is the industry's first search engine.

We've made background checks better.

Asurint excels where most background check systems fall short. That's because traditional methods often rely on applicants accurately self-reporting all addresses, then relying on manual methods to search countless court systems.

By contrast, **Asurint uniquely utilizes the power of IQLogics™.** The proprietary algorithm behind IQLogics intelligently recommends a more comprehensive background search for every candidate. **That means you get a more cost-effective, complete and time-efficient search.**

Why you'll love IQLogics

☑ You'll uncover accurate results not seen in traditional searches.

☑ You'll achieve faster placement, greater revenue and better client relationships

☑ You'll receive a more complete picture on every candidate... faster than ever before.

7/10 HR professionals choose Asurint over their current provider

85%

coverage of U.S. applicants who could be instantly cleared

How IQLogics Works

1 Input your unique search - **WHO** we are searching

Jane Appleseed, 123 Apple St. 🔍

2 IQLogics looks for **any additional places of residence** not provided by candidate.

3 Using a proprietary algorithm, IQLogics **searches our unique index** of jurisdictions to determine the best search to run

4 Results are **filtered through the compliance engine** to meet federal, state and even local laws and regulations.

Hired!

Jane Appleseed

The result:

You get a more **complete picture** on every candidate.
